I got the same regression results that Phil got:

	small	medium	large
intercept	-0.0406	0.0588	0.0899
Q_{t-1}	0.0263	0.0913	0.0449
CF	1.64	0.244	0.255
R2	0.552	0.622	0.407
N	28	29	26

I guess this is the end of the problem set. Thanks.
